Experience exceptional performance with advanced scanning functionality

# fi-6670/fi-6770 Series Color Duplex Document Scanners

### Intelligent scanning for an intelligent office

- ▶ Fast scanning up to 90 ppm/180 ipm in color or monochrome, landscape
- Ultrasonic double-feed detection with advanced control
- Loaded with "intelligent" functions for more efficient scanning
- > Advanced image processing in hardware with color graphics adapter (CGA)
- Valuable bundled software tools and applications including Kofax<sup>®</sup> VRS 4.2 Professional
- Service options to fit specific requirements and budget including Next Business Day, 4-hour or 24/7 contracts available

Increase efficiency in production environments with advanced scanning intelligence and high reliability. Designed with outstanding paper handling, fast scan speeds up to 90ppm/180ipm and intelligent productivity enhancement features, the Fujitsu fi-6670 and fi-6770 scanners deliver the automation and dependability needed for mission-critical production scanning applications. In addition, innovative features such as an intelligent multi-feed function drastically improves the batch scanning process by allowing the ultrasonic double-feed detection sensor to be trained to ignore intentional overlapping documents such as photos in insurance, patient label stickers in healthcare and tapedon receipts for accounting expense reports.

The fi-6x70 Series scanners come bundled with an assortment of valuable software tools and applications such as full versions of Adobe® Acrobat® Standard, ScandAll PRO with Microsoft SharePoint connectivity as well as VRS 4.2 Professional image and productivity enhancement. In addition, the included TWAIN and ISIS® drivers and flexibility of many interface options (SCSI/USB 2.0 or VRS CGA) contributes to decreased deployment costs and improved interoperability with complimentary hardware and third party software solutions.

As the first scanners in their class to offer hardware-assisted VRS CGA, the fi-6670A and fi-6770A models further improve the speed performance when utilizing certain advanced VRS imaging features. In keeping with the Fujitsu tradition, the fi-6x70 Series is the latest to adhere to the strictest of environmental regulations including Energy Star, Reduction of Hazardous Substances and Volatile Organic Compound to better our environment. Transform your paper documents into useful electronic data in a flash with the intelligent scanning features of the fi-6670 and fi-6770 production scanners.

#### Service and Support programs to fit your needs and budget.

The fi-6670 and fi-6770 scanners include a 90-day on-site, Limited Warranty. For full details on the Limited Warranty and on all service programs, go to www.ImagingService.com or call (800) 301-9475.

#### About Fujitsu Computer Products of America, Inc.

Fujitsu Computer Products of America, Inc. is a subsidiary of Fujitsu Limited, a leading provider of customerfocused IT and communications solutions for the global marketplace. FCPA provides innovative solutions for the U.S. marketplace. Current product and service offerings include high performance hard disk drives, scanners and scanner maintenance, palm vein recognition technology, 10Gb Ethernet switches and degaussers.

## fi-6670/fi-6770 Series Color Duplex Document Scanners
